Unit: God Created the World**

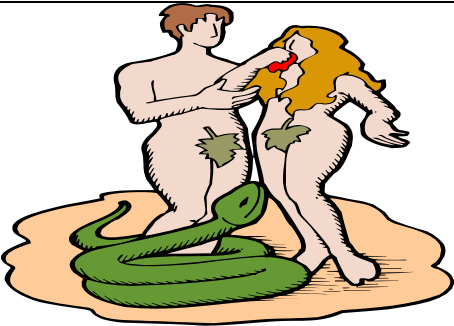

Level of Biblical Concept: CREATION

The story of creation is a phenomenal one that every child should hear repeatedly. Their natural curiosity about this world, the origin of man and need for a sound biblical understanding of creation dictate the need for this unit. We can teach our children to understand God's relationship with creation, God's relationship with His people, and their own relationship toward the creation. In addition to teaching these important truths found in the creation story, we also must teach them how to respond. The final lesson in this unit is focused on Palm Sunday based, as Christ made His triumphal entry into the City. This entire unit is part of the Lenten Season.
